

SEPTEMBER 30, 2017

QUARTERLY FACT SHEET

OBJECTIVE

The Fund seeks long-term capital growth, and as a secondary objective, modest income with reasonable risk.

PHILOSOPHY

Utilizing a conservative approach to achieve aggressive results. We compensate for the unknown (i.e. market volatility or political whims) with the known (i.e. what a company is actually worth). There are four tenets of our approach.

SEEK INTRINSIC VALUE:

We invest in companies, not hype. Our investment decisions are based exclusively on what we believe companies are worth today and what they'll be worth seven-ten years down the road.

KNOW WHAT YOU OWN:

We know everything we can know about the companies we invest in. We talk to their people, from the CEO on down. We visit their facilities. We use their products.

UTILIZE AN OBJECTIVE MEASURE:

We don't chase indices. We utilize an expected-rate-of-return that is both specific and absolute; it never varies. If the companies we invest in meet or exceed our standard, we are confident that we can beat the market and its indices.

BE DISCIPLINED BUYERS:

We exploit market volatility. We purchase companies when they are temporarily "on sale" for reasons we believe are unrelated to the actual value of the business. Doing so helps lessens the impact of our mistakes and makes exponential growth possible when we get it right.

STRATEGY

The Fund pursues its investment objective by normally investing approximately 60% of its assets in equity securities and approximately 40% in fixed-income securities and cash equivalents.

MANAGEMENT
